We firmly believe that excellence is achieved through meticulous research, the utilization of industry best practices, and the expertise of seasoned consultants.

LOCATION

Gurgaon

EXPERIENCE

4+ years.

ROLES & RESPONSIBILITIES

- Develop, test, and maintain scalable Python applications.
- Write reusable, efficient, and testable code.
- Integrate data storage solutions (e.g., databases, data warehouses).
- Collaborate with front-end developers to integrate user-facing elements with server-side logic.
- Debug and troubleshoot issues in live applications.
- Optimize applications for speed and scalability.
- Implement security and data protection measures.
- Stay up-to-date with the latest industry trends and technologies in Python development.

SKILLS AND QUALIFICATIONS:

- Strong proficiency in Python with hands-on experience in popular frameworks (e.g., Django, Flask, FastAPI).
- Experience with RESTful APIs and web services.
- Familiarity with front-end technologies (e.g., HTML, CSS, JavaScript).
- Proficient in working with databases such as MySQL, PostgreSQL, or MongoDB.
- Experience with version control systems like Git.
- Knowledge of containerization tools (e.g., Docker) and cloud platforms (AWS, Azure, GCP) is a plus.
- Strong problem-solving skills and attention to detail.
- Ability to work in a collaborative team environment.
- Excellent communication and interpersonal skills.
